### Project #355: Mittens!

- Make a mitten or a glove shape.
- Another idea would be to trace your child's hand and use this as the Glove or Mitten shape.
- Add some colours to this with some QTip painting.
- Next add some colourful pieces of paper to it.
- Add some cotton or wool to the mitten.
- Trim the edge of the mitten with cotton is another idea.
- Try some sparkles which will stick well with the paint.
- Try some liquid sparkles with a slim short paint brush
- Make two simple shapes of mittens and make two or staple them partly together so the child can place their hand into it.
- Another option would be to punch holes along the edges or the top to weave ribbon or string through.
- The mittens could be hanging or the string or wool could be wrapping the edges. (older children may like this)

### Song: I have 10 Little Fingers (chant)

I have ten little fingers, I have ten little fingers, I have ten little fingers  
Won't you count with me.....1, 2, 3, 4, 5, 6, 7 8, 9, 10!  
Repeat and change the number of fingers to five and one hand....
