

Ann's Creative Corner

Project #393: Window Art!

(Project by South Vancouver Family Place)

- Use a clear sticky piece of shelving plastic paper.
- Cut our hearts or other shapes you may think of.
- Place them onto the sticky paper.
- Add some confetti type paper.
- Add some sparkles if you like.
- Add some nature items as well.
- Think of other items. (shiny tin foil, tissue paper.....)
- Then you are finished with your design, an adult can help cover this with another sticky piece of shelving paper or waxed paper or other see through paper could work.
- Try some coloured cellophane paper.
- Maybe add a border to this or leave it plain.....

Activity:

Hold your creation up to a mirror, window, under lights and see how it looks in various lighting situations.
