

## Ann's Creative Corner

### Project #544: Space and Environment!

- Cut circles of various sizes to make your planets.
- Cut a ring shape for Saturn.
- Try using various colours related to the the planets
- Make a rocket ship by forming the body shape, wings and fire beneath.
- These pieces may be cut out so the children may glue them onto a piece of construction paper to form their own design of a rocket ship.
- Add your planets around the rocket ship.
- Add some stars by drawing stickers or sparkles!
- Put a window or two onto your rocket.
- Faces of people may also be put in the window.

Felt Story: Little Blue Rocket Diamond in the Sky (shapes below)

Song: Zoom, zoom, zoom

Little Blue Rocket was looking for a present for his Mom  
He flew around and around until he found the Moon  
He said "Are you a Diamond in the Sky"  
The sun said "No, I am the moon"

***Continue the story until he reaches the sun.***

The sun says "Yes, I am a Diamond and I am the Sun"  
So Little Blue Rocket flew back to his Mom and said  
"Mom, I found you a Diamond in the sky!"  
"Thank you Little Blue Rocket" (says his Mom)
