### Project #553: Nature Art!

- Gather some natural items from nature such as the dandelions and seeds, plus wildflowers, grass leaves etc.
- Place some glue onto a piece of construction paper.
- Attach a coffee filter to this.
- Add some more glue to the exposed side of the coffee filter.
- Drop your nature items onto this and create the design you like.
- The items may be many or a few, large or small, textured or not; children can decide what they like.
- If you like, you may want to add other paper like tissue paper, scraps of paper, old outdated spices etc.
- Drops of paint would be nice for this too. Use a small eye dropper for this.
- Crayon shavings would also be nice.

**Activity:** Go on a nature hunt. Gather your items. Sit together and talk about your walk and the items. If you choose other items such as the paint, children may choose the colours. Children may also help with tearing or cutting small pieces of paper to add to this creation.
