Project #568: Ice Cream Bar and Popsicles!

(By Kids Care Preschool and Family Place)

- Create an ice Cream bar or popsicle shape.
- Add details with texture such as some old coconut shreds or use shredded paper to glue onto the shape of your ice cream bar shape.
- For popsicle effect use some various colours or make it all one colour.
- Coloured cellophane paper would work well for your popsicle shape.
- Tiny cotton pieces would be really great for "Ice Cream Texture"
- Try adding scent to your creation using some Fruit Scented perfumes.
- Add a popsicle stick to the bottom of your creation.

Activity: Make popsicles! Jello mixed with fruit juice will set as a popsicle if mixed approximately one to one ratio. Place your mixture into plastic popsicle shaped holders. Place the top onto these that have the "Stick" attached. Let them freeze in the freezer till ready! Enjoy!
