### Project #600: Vehicles that Fly!

- Let's create a rocket ship, planes, blimps, hot air balloons and other vehicles that fly!
- This could be in the form of a collage or individual Flying vehicles.
- If you are looking to make a collage, look for postcards from airlines, calendar or magazine pictures.
- Make you collage on a large piece of paper.
- Add the details such as pilots and passengers.
- Create shapes for doors and windows
- Cut small sections for tailpipes.
- Cut some red or orange paper in strips for the Rocket Ship "Fire"
- Cut some smoke signals.
- Cut circles for wheels as airplanes do have wheels too!
- For the airplane, cut the body of the carrier, wings, wheels, propellers windows or other pieces as you see fit.

### Felt Story: Little Blue Rocket

Little blue rocket wanted to find a diamond for his mother Big Blue Rocket

He flew around and around until he saw the moon.

Are you a Diamond in the sky and the moon said "No I am the Moon"

He flew around and around until he found a planet.

Are you a diamond in the sky? "No, I am a planet".

He flew round and around until he saw a Star. Are you a Daimond in the Sky? "No, I am a star".

He flew round and round until he found the sun. "Are you a Diamond in the Sky?"

"Yes, I am a diamond in the Sky"

He came to a cloud. "Are you a diamond in the sky?" "No I am a cloud".

So little Blue Rocket picked up the sun and brought it to his mother

Here is a Diamond for you Mother. "Thank you" said his mother!
