

Ann's Creative Corner

Project #609: Cornstalks!

- Cut an ear of corn shape from yellow paper.
- Cut two leaf shapes to surround your corn stalk.
- Glue these together onto paper or as they are.
- Add details to the corn and the leaves.
- Use some Yellow and Green tissue paper for design. Crumple it for texture or leave it flat.
- Make a corn field collage if you have some pictures of corn. (magazines, flyers, newspapers, calendars etc.)
- Try use some Old popcorn kernels on this project (not recommended to use fresh popped popcorn or new popcorn as it is a food source and wasteful)
- Also, Popcorn can be a choking hazard as it can expand or get stuck in a child's throat. Not recommended for Toddlers, babies or some Preschool children)

Song: Popcorn Kernels (Actions)

Popcorn Kernels. Popcorn kernels,
In a pot, in a pot!
Shake it, shake it, shake it!
Shake it, shake it, shake it!
Till they pop, till they pop!
