Project #629: Fan Dance. Art and Fun!

- First Draw what you like onto a plain piece of paper.
- Make your own fan by folding paper back and forth to create the pleats of the fan.
- When Done folding the paper, pinch one end closed and staple it in place to create the fan.
- The Fans may be made of stronger paper and have sparkles or sequins glued on as well.
- If you like, you may want to attach a pipe cleaner or ring to the end of the fan.
- This could have other decorations on the ring as streamers could be attached by glueing or tying strips of paper, threads, wools etc.
- Fans may also be purchased as shown in the photo below.

Activity: Fan Dances!

Use various actions such as swaying the fan, up and down motions with your fan, into the middle and out of the middle. Use a dance fan as shown below which is made of lightweight silk fabric.
