Project #630: Bells and Jingle Bells!

- Let's make some Jingle Bells.
- Purchase some bells from a retail store.
- Attach a string, ribbon or pipe cleaner through the top loop of the bell.
- Use a small loop for fingers or attach another loop for the wrist.
- Try to make a wreath of bells.
- Take a flexible wire and thread your bells through this. Secure it by attaching the two ends together in a circle. Twist wires together.
- You may like to wrap the twisted attached area with some strong tape to secure it.
- If you make a wreath of bells, you may also like to add beads or other decorations by threading these between your bells.

Activity: Songs and Actions!

“Jingle Bells”

“Bell Marching Parade”

“ Shake your bells”

“Elevator song with Bells”
