

Ann's Creative Corner

Project #655: Family and Friends!

- Use a basic shape of people or two or three attached together to create a "Friends and Family" project.
- Colour in and draw details on the people's shapes.
- Add some soft wool or string for hair if you like.
- Create a mobile of people by attaching them to a stick, straw or pipe cleaner to hang them up.
- Glue your people onto another piece of construction paper and add some details around the Family and Friends such as outdoor or indoor scenery
- For younger children, stickers may also be included to add some details.
- Try using various shapes of construction paper pieces if you plan to build a house for your people.
- For a large group or Family project, you may like to place your group or Family and Friends onto a poster board to make a collage together.
- Use real photos to include in your poster board project!

Book: "My Family"

Activity: Have a picnic together and bring your poster with you to admire. Take some photos for your next project or booklet!
