Project #659: Valentines Vase!

- Cut out a vase shape.
- Glue onto some paper.
- Add some stems by drawing lines,
- Add some heart shapes by glue paper hearts onto the "Stems"
- Add some glitter glue or sparkles.
- Wallpaper is a nice choice for the Vase base.
- The Vase base could also be decorated with various items such as drawing, stickers, tissue paper, Q Tip painting, fingerprints etc.
- Spray the vase with some light scented cologne. Be sure to keep the cologne or perfume away from the children or well supervised if the children are capable of a Spray Bottle
- Scented powder may also be used for the flower tops. This may look nice as it would have a textured look and feel to the flowers.

Activity: Visit a Flower Shop

Smell the flowers

Touch the flowers

Learn about the care of flowers in pots and in vases.

Plant a single flower bulb in your own small pot to get it ready for Springtime!
