

## Ann's Creative Corner

### Project #660: Valentines Cards!

- Fold a piece of construction paper in half.
- Attach a paper stem and leaves.
- Provide some 3D type paper flower petals to glue onto the stems.
- Add some glitter to this if you like.
- Add some scent to it with perfume or powder.
- When you are done making the flower on the front of the card, place a verse into the inside of the Card.
- Write To and From or Love etc.
- Children may write the person/s in the card if they can or simply write or draw what they can.
- Stickers may be nice for this project as well.
- Make the cards a Heart shape is another idea.
- Think of various types of cards you could make.
- A collage card with family and friends photos.....
- Add your favorite pet photo to it.....
- What about other family members or teachers?

### Activity: Go to visit a Card Shop

Dollar Stores have plenty of cards to view or choose from. You may also get some ideas of the variety of designs for your cards.
