

Ann's Creative Corner

Project #663: People!

- Create some basic people shapes.
- Make a "chain" of people.
- Add details.
- Add names to the people.
- Place them onto a mobile such as a hanger or a stick.
- Glue your people onto a paper or a board.
- How about placing your people in a window.
- Frame your creation.
- Use various items such as wool, string and cloth.
- Try making a 3D doll type creation by adding pipe cleaners to a popsicle stick to create the arms and the legs.
- Use a simple cotton ball or paper face for the head.
- Make many if you like.

Activity: Puppet Show!

Use your 3D people dolls (puppets) to create a show for your friends and family. Try doing a show with one or two friends or family members while others watch the show. Be positive with the language and create a positive interactive show.
